Conference Objective

Covid-19 has proved the relevance of technology in business and human existence since its debut in December 2019. No doubt, the shut down of the world's economies consequence of the pandemic crisis triggered business and social lives to adopt technology through digital transformation. Many business organisations across sectors, government bodies and individuals which many least expect transact activities of business online to ensure sustainability during the turbulent times. Most of the successful businesses and digital leaders thus embody a general collection of values such as investment in continuous innovation, fact based decision making, customer experience that transcends all else and simplicity and speed taken to the maximum. The ICAN-Malaysia International Accountants' Conference Langkawi 2022 is relevant and significant as eminent professional and academic speakers will share their thoughts and experiences through the IMDS Conference theme tagged Building Economy Resilience: Navigating The Turbulent Times Through Digital Transformation.

It is our pleasure to invite you to join the IIAC-IMDS Conference 2022 Langkawi, Malaysia for professional career enrichment.
